From the President & CEO

“Learn something new. Try something different.
Convince yourself that you have no limits.” — Brian Tracy

There is so much new and different to learn and try at the BBAC!

Almost 500 classes each year plus monthly drop-in workshops for families and seniors provide plenty of opportunities. Each year, we present a roster of about 500 classes that always includes the fundamentals of painting, drawing, ceramics, and jewelry/metals, for individuals from pre-school to seniors who choose to explore the creative spirit, along with more advanced variations in just about every media, from encaustic to metals to fiber to sculpture. If your budget is pinched, we do offer scholarships for youth and adults — you can find the simple application on our website. Also consider the monthly inexpensive drop-in workshops for families and seniors.

Have you heard about our newest ArtAccess program, *Art of Caregiving*? Designed for those who care for the elderly or individuals with Alzheimer's/dementias, whether you're paid or not paid, the sessions are FREE. Each eight-week series offers creative breaks that include visual journaling, a variety of art projects, and the opportunity to network with people in similar situations. For more information, check our website or call Julie, 248.644.0866 Ext 111.

As we prepare this program book, we are also gearing up for *Shop & Champagne*, November 29 and *Holiday Shop*, November 30–December 21. Both are great times to introduce friends to this art center and also to support the BBAC. We'd love to see you there!

With my regards and best wishes for a happy, healthy new year.

DRAWING

Drawing on the Right Side of the Brain 1

I

Instructor: Kerry Yaklin

This is an introductory class geared at learning the basic skills for drawing. This theory approaches drawing as a learnable skill that eases as we modify the process of how we “see” in order to draw more realistically. Many skills required to draw effectively are located in the brains’ right hemisphere processing; not the dominant, analytic, left side. Projects are therefore designed to strengthen and practice these perceptual skills with how the right brain processes information. By strengthening these skills, you can feel the joy at achieving realistic looking drawings by experiencing the mental shift that produces accurate results. Items covered include: line, positive & negative shapes, proportion, light & shading, etc. We will discuss materials on the first day; only bring paper and pencil to first class.

Introduction to Drawing

I

Instructor: Clara DeGalan

Drawing is the most immediate means of expression of awareness. It's one thing to photograph an object — something else entirely to draw one. Successful drawing requires not only development of technical skill, but a refined understanding of the visual world, of how to transcribe that world into visual language. This course aims to develop skills in observational drawing, not only to technical proficiency, but to a sharpened and expanded sense of awareness. We'll spend time observing and drawing the visual world in this class, with two major aims in mind: Developing the technique to easily and joyously draw by observation. Channeling those skills into a personal studio practice, opening the door to both observed and imaginative drawing practice that readily translates private vision into a visual narrative. You will learn to draw both from your visible surroundings and from your dreams and leaps of imagination!

Painting: Introduction to Oil**Instructor:** Clara DeGalan

This course aims to introduce students to the oil painting medium as a means of visual expression. Students will become familiar with the tools, techniques and materials required to successfully develop their own visual language in paint. Oil is a unique, powerful medium. Its beauty and sensuality applies itself as potently to representational painting as it does to direct surface texture—each informs the other. Every artist has to find their own way into it, then it grows into a challenging, rewarding, lifelong relationship between maker and medium. We'll spend some time with art history, with traditional, foundational techniques, and with innovative ways to engage with oil paint in the Twenty-first Century. The genres of still life, landscape, figure painting, pastiche, and abstraction will be explored. The object of the course is to familiarize students with techniques that will enable them to translate their visual experience into the medium of oil paint, and to take that exploration to a more personal, instinctive place.

The sky's the limit!

The only limit. At the BBAC, we do not accept that there are boundaries to limit anyone from access to art.

The BBAC invites everyone to explore art—in their own time & in their own way—and offers many paths to take...including some alternative & different approaches.

ArtBridge

Since 2006, this program has provided intensive art instruction & mentoring in preparation for college entry to talented, motivated high school art students from underserved areas.

Each teen spends one to three years at the BBAC completing core curriculum & elective art classes, interning with an artist or instructor & completing a digital portfolio for college applications. Many work as counselors at our summer youth art camps.

We see up to 30 students each year & every one of them completing ArtBridge has been accepted to college.

The program is free for participants, who are initially recommended by their teachers or principals. While ArtBridge receives intermittent support from foundations, the BBAC has remained committed to maintaining this important program with or without outside funding.

ArtBridge in Detroit

In 2016, the BBAC adopted a Detroit middle school that had to cut art programming in 2010. We provide a weekly curriculum with an instructor and materials plus an after school program—all at no charge.

The Art of Caregiving

While programs for individuals with Alzheimer's & dementia continue to gain attention, the needs & interests of caregivers are often overlooked.

This program—FREE OF CHARGE—is geared toward providing the caregiver with an art outlet that gives creative relief from the daily routine. Sessions include networking, informal discussion & different art projects. No experience is needed.

Also provided: a take-home kit with supplies & materials reflecting the art session just completed. Caregivers can choose to share this with the person they care for or use it themselves.

Art of Caregiving sessions are scheduled every other Thursday through the beginning of June. Participants may choose a morning or early evening time. (Advance registration is required.)

Meet Me @ the BBAC

No prior art experience is needed for these art-looking & art-making experiences for individuals with early & mid-stage Alzheimer's or dementia.

The program is open to groups from human service agencies throughout the region. The BBAC also offers sessions for individuals still living at home.

During a typical session, a group will spend about a half-hour looking at & talking about art from a current BBAC exhibit. The group then moves to a fully-equipped art studio to create something based on the art they have just seen. Each person leaves with their completed project.

Participation fees are nominal.

Studio 1

This is both the name of a BBAC studio classroom & a philosophical approach to "art for all."

The BBAC & community partners—regional human service agencies—work together to provide art instruction for groups of individuals with a range of cognitive, physical & emotional challenges.

Studio 1 partners include JARC, Oakland County Children's Village, Angels' Place & Friendship Club.

Studio 1 was started in 2008 when the vision of "art for all" was just emerging, & remains a driving force behind our ArtAccess offerings.

Planet Lori Art Camp

Lori Haber Buckfire loved children & spent many afternoons doing art projects with her son Hayden. She passed away from ovarian cancer in 2010 when Hayden was five years old. Lori's memory is being honored with an art camp in her name specifically designed for children who had or have a parent or a close relative with cancer. Each summer for one week the BBAC hosts Planet Lori Art Camp for 50+ children, funded by the Lori Haber Buckfire Foundation so there is no cost to the campers.

For more information, visit: BBArtCenter.org or phone 248.644.0866 EXT. 111

Once a month there are drop-in workshops designed as convenient, inexpensive opportunities to be creative & learn something new. Enjoy different, authentic art projects each month with all materials provided.

ACCESS:

- a means of approaching or entering a place
- the right or opportunity to use or benefit from something

ArtAccess @ the BBAC is an essential component of meeting our mission to provide high quality, relevant services to the community and region, regardless of geographic, physical, cognitive or emotional "boundaries"...

- individuals with mental and/or physical challenges
- young, talented students from underserved communities
- older adults with dementia
- those who care for the elderly
- busy people who benefit from an "art break"

Everyone is welcome. The BBAC's vision statement is "art for all" & we have been celebrating that for 60 years.

BBAC Scholarships

In partnership with generous supporters, the BBAC offers scholarships that reflect the BBAC's vision of "art for all." These listings reflect contributions made August 2016 – August 2017. Scholarship donations can be made online @ BBArtCenter.org; by phone: 248.644.0866; or at the BBAC office. Scholarships are awarded based on financial need. The application can be found at BBArtCenter.org.

Jeannie Anderson Scholarship

Jeannie Anderson was a BBAC student many years ago. Shown below is a sculpture she made with her daughter as a model. The lovely little statue graces our hill on the north side of the building. Jeannie believed that everyone deserved art experiences; and with this scholarship her family will help make that possible for years to come.

This scholarship is funded by Family & Friends of Jeannie Anderson.
