From the President & CEO

"The colors of winter can be a source of inspiration, from the muted hues of the landscape to the vibrant shades of the night sky." — Andrew Island

As we approach another season, I am continuously amazed at the talent in our studios. The creativity and energy are palpable amongst the students, expertly led by our talented faculty. There is no better way to recognize this artistry than at our annual Student Works exhibition that will open in early February.

Winter might be just the right time to step "outside" of your comfort zone and try a new medium. We have so many new offerings — if you haven't taken the leap to experience the art center's welcoming classes — now is the time!

The season is also a time to celebrate. We are so fortunate to have a community of supporters, students, instructors, BBAC members, Board members and our corporate sponsors who strongly believe as we do, that arts and culture matter and make the region strong and vibrant.

And finally, why not share the BBAC with friends? Shop & Champagne on December 3rd is a perfect introduction to the holiday season. Our exhibition openings are another fun evening to meet and discover local and regional artists and their work. Also, monthly drop-in workshops can provide an opportunity to create an authentic art project in about 45 minutes!

Experience the magic of the BBAC, where art is alive and flourishing and as unique as the snowflakes that are sure to come!

With best regards for a new, creative year,

Ricky Blanding

above: Artist-Instructor Ricky Blanding, *100 Sketches*, clay

Artist Bio:

Ricky Blanding is a Detroit-based ceramic artist and owner of *Ricky Blanding Ceramics*, a small-batch pottery studio that produces architectural tile and seasonal collections, hosts educational workshops, and runs an apprenticeship program for aspiring production artists. Blanding has worked as a fabrication artist at Pewabic Pottery in Detroit where he produced architectural tiles and handmade pottery. In addition, he worked alongside administration staff to change policies and improve company culture. He was a Speaker / Demonstrator at the 2025 Michigan MUD Conference and is currently teaching ceramics classes for all ages and skill levels at various arts organizations.

Blanding received a Gold Key Scholastic Award in high school, enabling him to study ceramics at the Kansas City Art Institute. Upon his return to Detroit, he started teaching across Michigan as a ceramic and multimedia artist connecting with groups of all ages and building ceramics programming for schools and community studios.

The hardships he faced early on solidified his resolve to remain dedicated to his artistic practice while building community connections. As a queer Black man, Blanding recognizes the importance of his identity and is committed to leading with inclusivity and sensitivity for himself and others. In addition to his ceramic practice, Blanding has a passion for the environment and social advocacy. He is the founder of Scrap Soils, a nonprofit that collects and composts residential and commercial food waste. Currently this nonprofit works with the City of Detroit to ensure everyone has access to composting.

"After all the hardships and challenges," he says, "I now have the space and time to prioritize my creative identity and practice. Though I've had many achievements, my work is just getting started."

Ricky's class offerings at BBAC are on pages 14 and 16.

Ceramics: Wheel-Throwing All Levels

Instructor: Ricky Blanding

This 12-week course will document your growth towards a deeper connection and understanding of your own creativity through clay as a medium. As we grow in clay, there are benchmarks, epiphanies that we have when we realize what's possible. My hope is to walk you through these benchmarks so you can experience the nature of clay, rather than getting caught up on only your technical skill.

Goals for this semester are to:

- *Know more about your own voice in clay.*
- *Be self-sufficient to troubleshoot issues in clay without needing too much support.*
- *Have a body of work that reflects common benchmarks of many new ceramic artists.*

Drawing: On the Right Side of the Brain

I

Instructor: Kerry Yaklin

This is an introductory class geared at learning the basic skills for drawing. This theory approaches drawing as a learnable skill that eases as we modify the process of how we “see” in order to draw more realistically. Many skills required to draw effectively are in the brain’s right hemisphere processing: not the dominant, analytic, left side.

Projects are therefore, designed to strengthen and practice these perceptual skills with how the right brain processes information. By strengthening these skills, you can feel the joy at achieving realistic looking drawings by experiencing the mental shift that produces accurate results. Items covered include line, positive and negative shapes, proportion, and light and shading.

It can sometimes be a challenge to navigate through these great and fantastic waters with our familiar “motors and oars”. Why not use your innate creativity (we are ALL creative beings!) to make some fun therapeutic art that might be helpful in making you feel a bit better? As a Certified Art Therapy Practitioner, I will guide you in various art-making techniques that are designed to help you in so many wonderful ways. Through integrative methods, therapeutic artmaking engages the mind, body, and spirit in ways that are distinct from verbal communication alone. Why not give it a try? This course is designed and governed by me to be a safe, non-judgmental space for you to express yourself freely in. All are welcome.
See you in the studio!

***NOTE:** These are NOT professional art therapy sessions and I am not a licensed art therapist. I am a Certified Art Therapy Practitioner, an art instructor and a professional artist whose calling is to help others through the practice of making art.

Painting / Mixed Media: Abstract Expressionist Collage

Instructor: Sheri Lee Robinson

Let's get abstract...with collage!

In the mood to make some drawings and paintings and then rip them into pieces? I am! Let me guide through this cathartic and transformative creative process. Together, we will create a small body of work whose sole purpose will be to be re-crafted into a brand new collection of abstract collages on paper. This satisfying, multi-faceted process teaches the artist about the act of freely creating art with the intention of deconstructing it in order to give birth to a new, rearranged, complex work of art. We will spend time focusing on the history of collage and will look at the work of several major Abstract Expressionist artists such as Robert Motherwell, Lee Krasner and Willem De Kooning for examples and inspiration. I also will share several examples from my own studio and will teach the exciting mixed media process that I employ to create my work. Our focus will be on abstract compositions, but you may also create or use existing subjective initial pieces that can then be taken apart and used in your abstract collage. Already have some drawings and paintings at home that maybe are not working? Bring them in and use them! Old photos? Letters? Bring them along to be transformed into new art. This class is open to all.

Prepare to have a lot of fun and to leave with a brand-new body of work. See you in the studio!
No prerequisites or experience needed.

ArtAccess @ the BBAC = NO BOUNDARIES!

The Sky's the Limit...

The BBAC invites all people to explore art — in their own time & in their own way — with many paths to take...including some alternative & different approaches.

ArtBridge

This program is designed to benefit talented, motivated high school art students who come from underserved schools. Intensive art instruction and mentoring are provided in preparation for college entry. A typical teen spends one to three years at the BBAC, completing core curriculum and elective art classes, interning with an artist or instructor, and completing a digital portfolio for college applications.

ArtBridge is free for participants, who are recommended by their teachers or principals. While there is intermittent support from foundations, the BBAC remains committed to maintaining this important program with or without outside funding.

ArtBridge in Detroit

Since 2016, the BBAC has been providing a weekly art curriculum including an instructor and materials plus an after-school program to a Detroit middle school — all at no charge to the school or students. For six years prior to our arrival, the school had no art programming. We continue our outreach with a new partnership with Detroit Public Schools.

ArtBridge in Detroit is supported by:

The Art of Caregiving®

The needs of caregivers — whether professional or family members — are often overlooked.

Our program — **FREE OF CHARGE** — is designed to provide an outlet with creative relief from the daily routine. Sessions include networking, informal discussion, and different art projects. No experience is required.

We send participants home with a kit containing supplies and materials reflecting that day's art session. Caregivers can choose to share this with the person they care for or use it themselves.

Meet Me @ the BBAC

Art-looking and art-making experiences for individuals with early and mid-stage Alzheimer's or dementia are offered for groups from human service agencies throughout the region as well as individuals still living at home.

In a typical session, we spend about a half-hour looking at and talking about artwork in a current BBAC exhibit, then everyone moves to the art studio to create their own artwork based on what we've just seen. Each person leaves with their completed project.

Studio 1®

The BBAC, in partnership with human service agencies, provides art instruction for groups of individuals with a range of cognitive, physical, and/or emotional challenges.

Partners have included FAR, Oakland County Children's Village, Angel's Place, Friendship Club, Gesher Human Services, Karmanos Cancer Center, Pace Southeast Michigan, Michigan Arts Access; Bloomfield Hills Prep Transition Program.

Studio 1®, which began in 2008 when our vision of "art for all" was just emerging, remains a driving force behind our ArtAccess offerings.

Planet Lori Art Camp

Lori Haber Buckfire passed away from ovarian cancer at the age of 41. She was an artist, and passionate about children and helping others fighting the battle against cancer.

Each summer, for one week, the BBAC hosts Planet Lori Art Camp for 50+ children who had, or have a parent or close relative with cancer.

The camp is financially supported by the Lori Haber Buckfire Foundation so there is no charge for the campers.

BBAC Scholarships

In partnership with generous supporters, the BBAC offers scholarships that reflect the BBAC's vision of "art for all." These listings reflect contributions made September 1, 2024–September 1, 2025. Scholarship donations can be made online @ BBArtCenter.org; by phone @ 248.644.0866; or at the BBAC office. Scholarships are awarded based on financial need. The application can be found at BBArtCenter.org.

Jeannie Anderson Scholarship

Jeannie Anderson was a BBAC student many years ago. Shown below is a sculpture she made with her daughter as a model. The lovely little statue graces our hill on the north side of the building. Jeannie believed that everyone deserved art experiences; and with this scholarship her family will help make that possible for years to come. This scholarship is funded by Family & Friends of Jeannie Anderson.

Charles McGee Scholarship

In honor of the many years that the BBAC was fortunate to have his presence in the studios encouraging the numerous students he taught, guided and mentored, there has been a scholarship fund established to celebrate Charles McGee. Contributions to this fund will create opportunities for adults to explore the visual arts that he was so instrumental in.
