From the President & CEO

*"Enrich your palette. Expand the canvas.
There's always so much more to learn."* — Martin Scorsese

Spring is the time to start anew! The days are longer, flowers bloom, animals emerge, and the world comes alive. It is also a season for change and growth. Could this be the moment to finally explore a new class?

I happened across an article about children's recess...do you remember that excited energy you felt as the bell rang and you raced out the door? The opportunity to have a break from regular schoolwork and get reenergized. Why not consider taking a recess too...one day a week here at the BBAC? A day to set aside the outside world, all your "things to do" list, and explore your creativity and feel a sense of renewal.

And there is no better place to explore a new class than viewing our Annual Current Student Works exhibit. This show is always an amazing journey to recognize the work of our talented students and the incredible instructors who foster their growth.

Our exhibitions provide inspiration to take the "next step" into your own creative path. This year's shows promise to create awe and wonderment from many notable artists, emerging artists, student classroom shows and of course the MI Fine Arts Competition.

Finally, I want to express our gratitude to everyone who makes a financial contribution to this cherished art center. Your support assures us that future generations will experience the creative energy the BBAC provides. Stay tuned for this year's Fine Art of Summer house and date!

So, let's spring into the new season of change and take that recess — I will see you at the slide and in the studios!

Artist Statement:

I have been painting and drawing since childhood. In Europe I learned how to draw and paint like the old masters. In the USA I was introduced to contemporary methods and theory, earning my MFA in painting and drawing. In my works I am juxtaposing the realistic and the dreamlike, integrating contrasting criteria: objective and subjective expression.

My works have been shown in museums, colleges, universities and galleries.

Living in Northern Michigan for about 12 years drew me into the beauty and serenity of the surroundings. I am mostly painting special places where I find peace. I am showing this through the materials and techniques of art; what I feel and how important nature is to me.

I hope viewers feel the same and preserve everything that Mother Nature has to offer.

I have been teaching art classes for kids and adults for twenty years in various organizations. Some of them include CMU, MMCC, Midland Center for the Arts, Crooked Tree Art Center, Glen Arbor Art Center, Northwestern Michigan College, and Traverse City Area Public Schools.

CERAMIC ARTS

Wednesdays

Ceramics: Wheel-Throwing Intermediate / Advanced

Instructor: Ricky Blanding

This course will document your growth towards a deeper connection and understanding of your own creativity through clay as a medium. As we grow in clay, there are benchmarks, epiphanies that we have when we realize what's possible. My hope is to walk you through these benchmarks so you can experience the nature of clay, rather than getting caught up on your technical skill, only.

Goals for this semester are to:

- Know more about your own voice in clay.
- Be self-sufficient to troubleshoot issues in clay without needing too much support.
- Have a body of work that shows you how you would approach projects that many great ceramic artists have perceived while learning this medium.

Conceptual Painting:
Exploring Color
& Composition / Level 3 & 4

Instructor: Garth Glazier

Conceptual Painting is for representational and abstract painters who want to push further into self-expression using color and composition while working on their own projects. If you have ever felt that your work could be more expressive of a feeling, an idea, or a moment, this course is for you. We will analyze the role of reference in building a painting and the art of seeing the visual designs hidden within an image. We will explore using color harmonies, color temperature, value, shape, rhythm, and composition to bring that design to the forefront. We will also explore how starting a painting with a core concept can transform the artist's approach to a subject by first asking what we want a painting to be about. Students are encouraged to select their own subjects for painting with input from the instructor as needed.

Acrylic, oil, watercolor, transparent inks, color pencil and pastel media are welcome. Please see materials list for what to bring on the first day.

Instructor: Kira Keck

This workshop is a group study of woven structures and patterns and their many possibilities. This classic round-robin setup is an incredible way to learn how to get the most out of each warp. Structures may include lace weaves, honeycomb, waffle weave, block double weave, corduroy, summer and winter, etc. Our emphasis is learning how to create unique weaves with traditional structures using experimentation and exploration.

MIXED MEDIA WORKSHOP

Requiem: A Therapeutic Art Making & Writing Workshop

W

An Act or Token of Remembrance

1-Day Workshop — June 11

Instructor: Sheri Lee Robinson

Join me as we take a creative journey into the complicated and honored subjects of grief, loss and mourning. Without exception, grief, in its many forms, will touch all of us at some point in our lives. A loved one's passing, a job loss, a move to a new city from one that you loved, the switching of team members (in any capacity), a change in health, relationship changes...the list goes on. There is no way around it, we must go THROUGH it.

In this workshop, you will bring in your own blank Requiem Book (any sketchbook or un-lined journal will do) to work in and continue your Requiem explorations in. The Requiem Book writing and art therapy-based exercises, which I will guide you through step-by-step, are designed to give you a creative helping hand as you navigate the physical, mental and emotional world of grief and all of its components.

You will also create a collage (or several collages!) based on your findings discovered during the work-book writing and art exercises.

The environment at BBAC is lively, inviting, kind, and is a safe space for all. I look forward to welcoming you to this incredible new workshop. See you there!

While demonstrations and guided exercises will anchor each session, ample time will be provided for individual exploration and reflection as well as specific acrylic pastes, gels and art tools to be used by the attendees.

This course is suitable for artists with some prior experience in painting or mixed media who are interested in broadening their material vocabulary and working in a series-based approach.

VISITING ARTIST WORKSHOP

Creative iPhoneography Workshop

2-Day Workshop — June 30 & July 1

Instructor: Armin Mersmann

When the term *iPhoneography* was first coined, it simply meant “the art of taking pictures with Apple’s iPhone.” While iPhones are preferred (iPhone 11 or higher recommended), other smartphones may also be used. We will cover the basics of the iPhone camera and begin working with apps to create images that rival those from DSLR cameras. But this is not a traditional photography class. Instead, the focus is on exploring creativity through the iPhone—asking not how do I take a better picture, but how can I make a more expressive and imaginative image? “What if” will be the mantra. We will explore app stacking, photo collage, and image manipulation techniques, learning how to distort, alter, and transform photographs. The results may appear surreal, abstract, fantastical, or even antique. The possibilities are virtually endless.

iPhoneography emphasizes not capturing a single decisive moment but building an image through a creative process that closely resembles painting and collage, rather than conventional photography.

There is absolutely no AI used in this class.

VISITING ARTIST WORKSHOP

Expressions in Contour Drawing Workshop

2-Day Workshop — August 24 & 25

Instructor: Armin Mersmann

Contour drawing is an essential technique in art because it provides a strong foundation for both drawing and painting. It is a method in which the artist outlines the shape, structure, and mass of a subject. The primary details and features are defined, while smaller details and value transitions are intentionally omitted.

In contour drawing, the artist focuses on accurately representing the edges and boundaries of forms—their “contours”—without relying on shading to create volume or depth. Instead, expression and structure are achieved through line quality.

The primary goal of this workshop is to explore the expressive potential of line by using thick, thin, lost, and found lines to describe form, space, and movement. In short, a single line can tell a story. There are five types of contour drawing; in this ten-hour, two-day class, you will work with blind contour, closed contour, and, if there is time, open contour drawings. You will also see sample of cross-contour and shaded contour drawings.

ArtAccess @ the BBAC = NO BOUNDARIES!

The Sky's the Limit...

The BBAC invites all people to explore art — in their own time & in their own way — with many paths to take...including some alternative & different approaches.

ArtBridge

This program is designed to benefit talented, motivated high school art students who come from underserved schools. Intensive art instruction and mentoring are provided in preparation for college entry. A typical teen spends one to three years at the BBAC, completing core curriculum and elective art classes, interning with an artist or instructor, and completing a digital portfolio for college applications.

ArtBridge is free for participants, who are recommended by their teachers or principals. While there is intermittent support from foundations, the BBAC remains committed to maintaining this important program with or without outside funding.

ArtBridge in Detroit

Since 2016, the BBAC has been providing a weekly art curriculum including an instructor and materials plus an after-school program to a Detroit middle school — all at no charge to the school or students. For six years prior to our arrival, the school had no art programming. We continue our outreach with a new partnership with Detroit Public Schools.

ArtBridge in Detroit is supported by:

Harriet Siden

The Art of Caregiving®

The needs of caregivers — whether professional or family members — are often overlooked.

Our program — **FREE OF CHARGE** — is designed to provide an outlet with creative relief from the daily routine. Sessions include networking, informal discussion, and different art projects. No experience is required.

We send participants home with a kit containing supplies and materials reflecting that day's art session. Caregivers can choose to share this with the person they care for or use it themselves.

Meet Me @ the BBAC

Art-looking and art-making experiences for individuals with early and mid-stage Alzheimer's or dementia are offered for groups from human service agencies throughout the region as well as individuals still living at home.

In a typical session, we spend about a half-hour looking at and talking about artwork in a current BBAC exhibit, then everyone moves to the art studio to create their own artwork based on what we've just seen. Each person leaves with their completed project.

ACCESS =

A means of approaching or entering a place; the right or opportunity to use or benefit from something.

ArtAccess @ the BBAC is an essential component of meeting our mission to provide high quality, relevant services to the community and region, regardless of geographic, physical, cognitive or emotional "boundaries"...

BBAC Scholarships

In partnership with generous supporters, the BBAC offers scholarships that reflect the BBAC's vision of "art for all." These listings reflect contributions made September 1, 2024–January 1, 2026.

Scholarship donations can be made online @ BBArtCenter.org; by phone @ 248.644.0866; or at the BBAC office. Scholarships are awarded based on financial need.

Jeannie Anderson Scholarship

Jeannie Anderson was a BBAC student many years ago. Shown below is a sculpture she made with her daughter as a model. The lovely little statue graces our hill on the north side of the building. Jeannie believed that everyone deserved art experiences; and with this scholarship her family will help make that possible for years to come.

This scholarship is funded by Family & Friends of Jeannie Anderson.
